## THE DEMOCRATIC MEETING.

Candidates Well Received by an Immense Crowd.

The Ovation Tendered Prof. Abshire, Nominee for School Superintendent.

The Democratic meeting held at Union Hall last Thursday evening was the largest and most enthusiastic political meeting that has taken place in Sonoma since the campaign opened. The hall was beautifully decorated with American flags, flowers, ferns and evergreens.

The meeting was presided over by Hon. Robert Howe, who introduced in their turn each of the nominees on the county ticket, all of whom were warmly welcomed by those present.

When Prof. Abshire, nominee for School Superintendent, stepped before the people of his old home he was welcomed with an ovation, the equal of which has never before been seen in Sonoma county. Men cheered and applauded, the ladies clapped their hands and waved their handkerchiefs and for several minutes the audience went wild at the sight of Sonoma's favorite teacher. During his brief address Mr. Abshire was interrupted no less than twenty times by deafening applause which fairly made the building tremble.

At the conclusion of his remarks the audience broke forth tumultuously and for fully five minutes were unable to restrain themselves.

The scholars of the Sonoma High School also joined in doing honor to their old teacher and together with many other admirers in the audience showered bouquet after bouquet upon the stage which fell at the feet of one of the most popular candidates that the people of Sonoma Valley ever welcomed.

Mrs. Martin, who is making a fight against Mr. Abshire for the office to which he aspires, occupied a seat in the audience and was a silent and grim witness to the popular demonstration in favor of her adversary.

Emmett Sowell, nominee for District Attorney, and W. H. Pool, candidate for Auditor and Recorder, also showed that they were unusually popular by the greeting they received.

Lee Ellsworth, for County Treasurer and Wm. Longmore for Assessor, and in fact all the nominees present showed popularity by the enthusiastic welcome tendered them.

In addition to the county candidates the meeting was addressed by M. H. LaRue, nominee for Railroad Commissioner, T. J. Butts of Guerneville and James A. Devoto of San Francisco.

After the meeting had adjourned dancing was indulged in until 12 o'clock in which some fifty couples participated.

The Republican nominees for the various county offices will also address the meeting.

Union Hall has been magnificently decorated by the ladies and the meeting bids fair to be one of the most impressive ever held in Sonoma by the Republicans.

A full report of the meeting will be given in next week's issue.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this Remedy is taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and lessen its severity, and it is the only remedy that will do this. It acts in perfect harmony with nature and aids nature in relieving the lungs, opening the secretions, liquefying the mucus and causing its expulsion from the air cells of the lungs and restoring the system to a strong and healthy condition. No other remedy in the market possesses these remarkable properties. No other will cure a cold so quickly. For sale by all dealers.

## GLEN ELLEN.

Gibson & Weise are putting a new roof on the Romo Hotel.

Wine-making still continues up this way notwithstanding the late rain.

Ben Pholey and family have moved into one of Dr. O'Donnell's cottages.

Mushrooms are plentiful hereabouts and are being gathered in large quantities.

Frank Boyle had one of his fingers badly crushed one day this week. The injury is painful but not serious.

School Superintendent Martin combined business with business last Tuesday by visiting our school and talking to voters.

The Democratic county candidates will hold forth in this place to-morrow evening. A social hop will follow the meeting.

Supervisor Thompson was in town last Wednesday examining the public roads and looking after other interests of the county in this road district.

Ray, the little son of J. M. Hendley, was badly injured last Monday by falling from one of the railway cars of the Donahue road. His injuries, however, are not as serious as at first reported and he will soon be up and around again.

REMINGTON.

Glen Ellen, Oct. 25th, 1894.

## Lee Ellsworth.

Lee Ellsworth, the Democratic candidate for County Treasurer, came first to Sonoma on the 11th of October, 1852. He is a native of Chataqua county, New York. He worked at his trade of carpenter in the town of Sonoma for three years.

In 1855 he moved to Petaluma, that being the most promising town in the county. He engaged there as a carpenter, builder and contractor and as such he erected many of the early buildings in that city.

He has been installed forty-six terms as Treasurer of the I. O. O. F. Lodge in Petaluma and forty seven terms as Treasurer of the Encampment. He has been for twenty years Treasurer of the Sonoma and Marin Agricultural Society. In all these positions he has been faithful and efficient. He has never before asked an office at the hands of the people, though he has helped hundreds of others in their canvass for places. It was a nomination eminently fit to be made. Mr. Ellsworth has an unblemished character and the warm personal esteem of all who know him.

In Petaluma and Vallejo Townships, where he has lived so long, and in Sonoma Township, the scene of his first labors in the county, there will be but few votes cast against him. Members of all parties will vote for Lee Ellsworth. As an instance of what Mr. Ellsworth meets in his canvass the following is interesting: "So you are a candidate for Treasurer, are you?" said a citizen, grasping his hand. "I am," said Mr. Ellsworth. "I am glad of it," said the man in reply, "because it gives me an opportunity to return a favor you did me years ago."

Not one, but many instances of this kind occur, not exclusively for political favors rendered, but for others from all classes of people. He cast his bread upon the water and after many days it returns to him.

Since writing the above we met on the street a leader in the Populist party and he said: "I am going to vote for Lee Ellsworth for Treasurer because he is the best man in Sonoma county." "Yes," said Rufe Murphy from Mendocino, who happened to hear the remark. "I have sold him tens of thousands of dollars' worth of lumber and he is the squarest man I ever knew."

Santa Rosa Democrat.

## A Political Pointer.

The people are beginning to realize that it is a mistake and a crime against the best interests of the State to send professional politicians and corporation lawyers to represent them at Sacramento.

This alone is the one great cause of all the extravagance and most of the pernicious legislation enacted. If the voters see fit to elect such men to office they have only themselves to blame.

Elect J. W. Keegan to the Assembly and the people will have a strong, able and fearless defender, one who has at all times been on the right side of any question that affects the public welfare, is a successful and representative business man in touch and in sympathy with the people and regardless of party is worthy of the support of every fair minded man.

A correspondent of a Cincinnati paper tells how he saw a pine tree cut down in the morning and through the various processes watched which it was put in making it into paper and the next morning read the newspaper printed on what was a part of that pine tree twenty-four hours before.

Another paper tells us how wheat was cut, threshed and made into busenits in twenty minutes by the watch. We are not slow these days.

William Thomas of Pitman Grove, New Jersey, is seventy years old. He and his wife quarreled twenty years ago and not a word has passed between them since, though they live under the same roof.

Every neighborhood should support a farmer's club. There is material for one in every school district and the benefits derived from them is beyond computation. We know of one which has been kept up for years, and the members are not only better farmers for the exchange of ideas that take place at the regular monthly meetings, but they are better friends and feel a deeper interest in each other.

Tomato omelet—Peel and chop five good, firm tomatoes of medium size, season them with salt and pepper and mix a half teaspoonful of powdered bread crumbs with them, then stir in four eggs beaten to a foam. Put a tablespoonful of butter in a frying-pan and when it is hot pour in the mixture and stir it rapidly until it begins to thicken. Let it brown for two or three minutes on the bottom, then fold it over, slip it on a hot dish, garnish with some sprigs of parsley and serve for breakfast. It is a pretty as well as appetizing dish.

Nice for breakfast—Take three veal cutlets, cut each into three or four pieces and sear them quickly in a little hot butter. Chop fine one large onion and fry it golden brown in a tablespoonful of butter; then add half a dozen tomatoes peeled and cut up, a sprig of parsley minced and a bit of red pepper pod. Salt to taste. Cook these all together until the tomatoes have simmered off some of their juice; then put in the seared veal, cover close and cook slowly half an hour, or until the veal is tender.

## A Marvelous Showing.

The U. S. Government, through the Agricultural Department, has been investigating the baking powders for the purpose of informing the public which was the purest, most economical and wholesome.

The published report shows the Royal Baking Powder to be a pure, healthful preparation, absolutely free from alum or any adulterant, and that it is greatly stronger in leavening power than any other baking powder.

Consumers should not let this valuable information, official and unprejudiced, go unheeded.

A little tar with a few drops of carbolic acid rubbed beneath the under jaw and upon the breasts of colts that run in pastures bordered by swamps or woods will prevent a great deal of annoyance from mosquitoes and small flies.

It is poor economy and worse taste to wear out soiled dresses made for the parlor or street in the kitchen. They always have an untidy, dragged look and had much better be dyed or pressed in to service in some other way. The best dress for the kitchen is a calico made perfectly plain.

We will be a healthier and happier race when the double bed is banished. The light iron or brass bedstead with a mattress that can be easily aired and kept clean is the bed that ought to be generally used. The heavy comforter ought to be banished with the double bed, for it belongs to the log cabin and the backwoods.

It is not yet too late to set out strawberries, though for this the ground should be very well prepared and heavily manured and extra care taken with mulching the plants for winter protection. Plants set out now and well cared for will make considerable root growth and be ready to start in the Spring at the first suitable weather.

Do not run after happiness, but seek to do good and you will find that happiness will run after you.

Wood ashes are a good fertilizer for peach trees and in their absence farm yard manure should be used freely. Peach trees require plenty of feeding.

A church in Vermont recently advertised for a minister and besides stipulating that he should be young, married and interested in social and church work insisted that he must be a Republican.

It pays to keep something growing in the garden during the whole season. One crop should follow another and thus prevent weeds from taking possession. A garden that has been given over to weeds is a disgusting sight.

Fruit that is too ripe to be sent to market may frequently be utilized to advantage by being mashed and placed in tubs, troughs or other convenient receptacles near the bee hives. The bees will then make honey out of products of the orchard which would otherwise go to waste.

## Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
